

Pathogenic *Vibrio* Scheme – Preliminary Intended Results Notification

We apologise for any inconvenience caused by the delay in closing this distribution (original date 11 April 2025) due to an extension granted for some countries where there were shipment issues.

These results are provided for guidance and are determined from the examinations undertaken during quality control testing of the samples. The enumeration results may show minor variations from the final results, which are calculated from the participants' consensus results, and included in the distribution report.

Distribution: **V071** Samples: **V0182 and V0183**

Intended results:

Sample No	<i>V. parahaemolyticus</i> (detected / not detected)	<i>V. parahaemolyticus</i> (cfu g ⁻¹)	<i>V. cholerae</i> (detected / not detected)	<i>V. vulnificus</i> (detected / not detected)
V0182	Detected	3.2x10 ⁴	Not detected	Detected
V0183	Detected	3.3x10 ³	Detected	Not detected

Sample contents:

V0182	<i>V. parahaemolyticus</i> , <i>V. vulnificus</i> and <i>Pseudomonas</i> sp.
V0183	<i>V. parahaemolyticus</i> , <i>V. cholerae</i> and <i>Pseudomonas aeruginosa</i>

Laboratory identification numbers of participants who did not return results this distribution:

The distribution report providing details of your individual performance and an analysis of all participants' results will be dispatched within three weeks. The report may also include sample specific comments.

Repeat samples are available for only **one** month from the close of the distribution, therefore participants who experienced problems with any of the examinations and wish to make a further attempt or repeat a count need to place a request immediately.

The next distribution of Pathogenic *Vibrio* Scheme samples will be dispatched during the week beginning 30 June 2025.

If you require any technical advice or wish to make comments or suggestions relating to the scheme, please contact us.
